

Rahul Kc

Data Analyst

Enthusiastic and eager to work as a data scientist through dedication and understanding of various programming languages. Motivated to learn, grow and excel in the industry.

 Milpitas, CA 95035, USA

Work Experience

Business Operations Manager • Zemplee Inc

I have been pivotal in driving operational efficiency across the organization. By implementing data-driven strategies and optimizing workflows, I have helped with the successful implementation of our products at numerous facilities across the nation. I am committed to aligning operational objectives with Zemplee's mission to revolutionize assisted living and home care services through my background in data science and operations.

April 2022 - Present

Business Analyst • Medical Incentive Advisors

I was focused on uncovering and analyzing tax strategies that can significantly boost income for medical practice owners across the nation. My data-driven research into little-known tax benefits like R&D tax credits and Employee Retention Credits (ERC) has enabled us to secure substantial financial advantages for our clients.

August 2020 - March 2022

Intern • Medical Incentive Advisors

As an intern with a background in data science and operations, I introduced various programs such as Tableau, and Excel, and coding languages such as Python and SQL to the then startup. I analyzed all of our clients' personal tax, business financial, and PnLs allowing for the capturing of dollar-for-dollar tax credits. On average my analysis would lead to each client saving an average of 20% on their tax liabilities, about \$30,000 for each client.

May 2021 - August 2021
